LIN, Hsuan-Yeh, Oscar

IESEG PGE 2018-2023

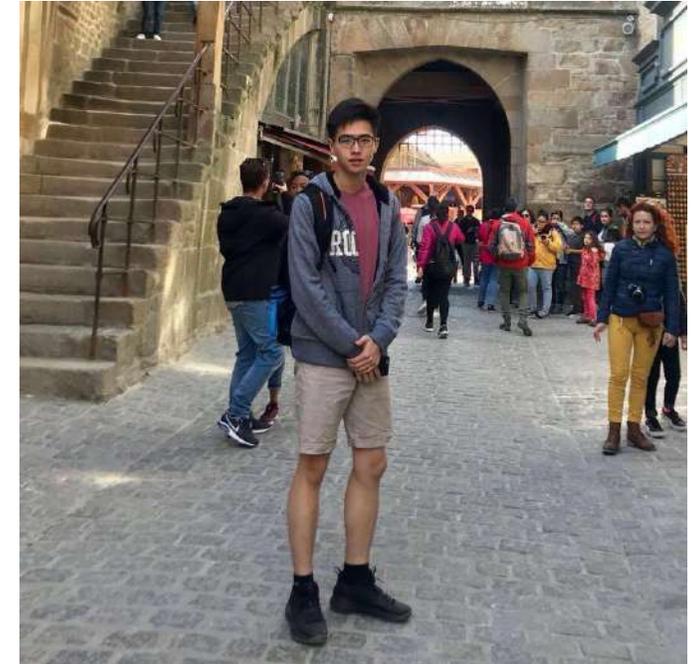

Academics (4/5)

Insight: AP/IB knowledge (especially in Economics) is just a prerequisite.

I believe the courses designed (courses are fixed in the Bachelor Cycle) for students (30 ECTS/Semester) are more well-rounded and more challenging than most of the other bachelor programs globally. Mathematics, Economics, Law, Business English, and Business-related courses such as Marketing are heavily weighted, however, unique classes such as Creativity, Artistic Culture & Expression, Drama, and Sports Management allow us to continually step out of our comfort zones to discover our artistic and intellectual potential, especially for students educated in Asia.

The studying atmosphere is very competitive because we all want to exchange to the best schools possible - the higher you ranked (global average/ or GPA), the better options you will have. Many people are competing for exchanging to schools such as Harvard, LSE, and Cornell (Dyson). Nevertheless, we also have opportunities to exchange to top business programs globally such as IESE, Copenhagen Business School, and Shanghai Advanced Institute of Finance at Shanghai Jiaotong University.

Location (5/5)

Insight: You can't find anywhere safer and more convenient.

La Défense, where the Paris Campus is located, is like a less-crowded and more artistic version of Xu-Jia-Hui (徐家汇). The transport station just in front of our school allows you to travel to almost anywhere in Paris and beyond within minutes.

La Défense is one of the safest places to be in Paris. It's basically made up of four types of institutions: Government departments, enterprises, business schools, and shopping malls. Marines and soldiers are patrolling all over the region (even inside the malls) on a daily basis.

Facilities (4/5)

Insight: You will feel privileged.

You can basically download and use most of Microsoft's products (for work & business) for free. However, the cafeterias and libraries are small. Nevertheless, you can find anything in the restaurants in the malls just beside the school, and you have free access to the online library of the biggest private university in France - Lille Catholic University.

The ID card (ISIC, International Student Identity Card) allows you to visit museums and many top destinations in France for free. You will often get discounts in restaurants, café, and bars.

You cannot live on-campus in Paris, but you can choose many magnificent student residences in collaboration with IESEG. The French government will pay about 30% of your rent.XD

Student Body (5)

Insight: People love each other.

I chose Bachelor in English but most of my classmates are French, so my French has been improving dramatically since I first came here. Classmates are actively helping me out to adapt to French society, and very willing to speak English and to teach me French. Also, they are very interested in Asian culture.

There is NO DRUG, NO GUNS, and NO DISCRIMINATION.
People drink, smoke, and talk a lot.

Faculties (4.5/5)

Insight: Professors are individually focused.

Professors are very knowledgeable and passionate about their teachings.

Overall Recommendation (4.5/5)

If your dream is to become a well-rounded business leader, come here.

Restaurants...etc

WRITE CHINESE (TRADITIONAL)
NAMES FOR MY CLASSMATES. VERY
CLEAR THAT THEY LIKED THEM!
